

Always feel comfortable in our environment

## These are our products.

## Amenities required for our living environments

We are always trying to develop human-friendly products that offer daily comfort through innovative ideas.

## Comfortableness in the social environment

We offer you the comfort and convenience of bathroom furnishings for schools, public facilities (airports, stations and parks), hospitals and commercial spaces.

# Distribution revolution

The issues of transportation costs and storage space directly impact on costs. From the viewpoint of our customers, Clinpet is constantly aiming for cost reduction by developing and improving our manufactured products and processes.

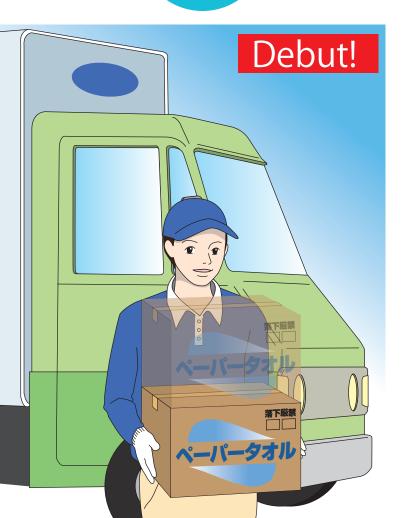

## Sharp reduction in transportation costs and storage space!

Revolutionary Idea!! Our paper towel compression packaging achieves a compression of 2-to-1 for paper products.

Special Processing
Packaging

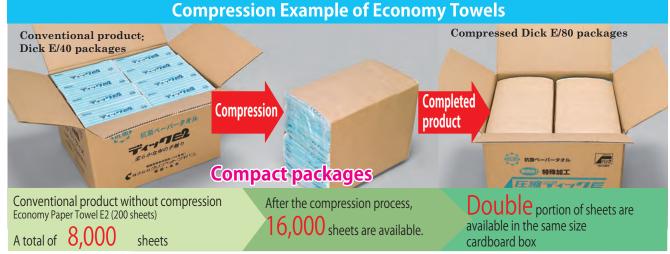

Paper Towel Compression Packaging

Japan

# Universal thinking

All people, regardless of differences in culture, language, nationality, talents or disabilities, can use our products equally.

### Product features 1. Everybody can use with one hand.

Easy-to-use product for everybody, from little children to the elderly and those with one-handed disabilities, because the toilet paper sheet can be pulled out with only one hand.

#### 2. Economical supplies are available.

No wasted sheets in storage, because you can refill as needed.

Holders with character designs (Hello Kitty, Relakkuma etc.) Available with animal stickers

3. Cost saving!!

Pulling out a paper sheet one by one can reduce usage.

Standard homes, retail outlets, kindergartens, day nurseries, schools

#### 4. No sound when used

There is no sound when you pull out the paper sheet. (Women are especially concerned about this issue.)

5. Contribute to the reduction of garbage.

No paper roll core, reducing garbage through less packaging.
